Simple Lower Thirds Pack – After Effects Template

01 // User Guide

Thank you for purchasing Simple Lower Thirds Pack!

A selection of minimal lower third placeholders, with both left and right alignments, to add professional identification to your video production. Each lower third element is easy to edit. Width and color values are set using a simple, expression based control point.

Features :

- 10 animation styles
- Left and right aligned animation for each style
- Very fast render
- No plugins required
- Easy to edit

The FREE font used in the project can be downloaded here : http://www.fontsquirrel.com/fonts/oswald

Simple Lower Thirds Pack – After Effects Template

02 // **Editing**

In the Project panel open the folder **01. Edit These**

Within here are all the editable lower third compositions, both left and right aligned versions.

Things to note :

- The top (yellow) layer of each composition contains adjustments to the **color** of the line/block element and also the **width** of the FINAL line/block element

- The BLUE layers are the editable **text layers**

- Edit all text at the 2 second mark (there is a composition **marker** signifying this point)

- Non-editable layers are set to hidden (shy)

- Lower thirds **begin animating off** at the 4 second mark, and will have disappeared at the 6 second mark.
