Simplicity – After Effects Template

01 // **User Guide**

Thank you for purchasing Simplicity!

Simplicity is a clean slideshow for photos or video, based around the use of single, emotive words. Perhaps a corporate promotional video emphasizing the company's powerful brand ideals or a personal montage of images with inspiring keywords.

The project contains 27 unique image/word transition styles in a modular format so you can swap and re-order scenes to suit your message.

The FREE fonts used in the project can be downloaded here :

Simplicity – After Effects Template

03 // **Adding Images**

In the Project panel open the folder **01. Edit Comps / Images**

In here are all the editable image compositions for the project. Open each one individually and add your photos or video footage to the bottom layer – removing the existing solid color layer.

Ensure to fill the entire composition with your media.
